### Internship agreement template canada

I am Nicole Delger, I brand development and communication strategy for small businesses. If you find this plan useful, you'll get additional materials by signing up for my newsletter. Sample agreement: The following document describes the employment contract between trainees and your company. As an intern, my goal is to develop mutual trust and respect. By signing this document, we agree to work together to create a great experience for you as a student, believing that you are ready to work hard. If you give me your best: smart thinking, ingenuity, owning your own work and professionalism, you will be treated the same in return. By signing, we also agree that we believe that strong partnerships are built up when expectations are clearly set and there is an open link between both sides. Tasks will be given in full within the agreed time, just as clear instructions, guidance and your PAYMENT will be given to you. \* Paid vs. unpaid internship is about you. Instead of working an hourly rate, we decided to go on a small, weekly scholarship. That's how I was able to pay the budget for my internship. For me, it was important to reward his hard work scholarship, so he feels ownership and responsibility. Time for dedication and expectations: \* There are two versions of it. I manage an intern that works remotely (as a virtual employee) and manages your time. You may want to assign more structured hours to your internship. [version 1] I want you to work 12 to 20 hours a week. If you have a crazy week at school and need to make it 12, it's good with me (school is first). If you have a loving project and a sense of tons of ownership - work for more than 20. Let me know if you're waiting for times when you might not be available. [version 2] You commit to ## hours of the week, 9-2:00 on Tuesdays and Thursdays. I understand that at the last minute things can happen, so if you're going to miss a day's work, please let us know as much as possible. I also ask you to give us details of your holiday weeks and leisure time. I also know that sometimes school gets difficult and deadlines are due. Practice smart planning when you see that your class syllabus becomes particularly hairy (everyone had hell weeks in college). give us a heads-up and remind me when it's closer. It's just smart planning and will serve you well in the future! Personal responsibility is an important quality for employees. Although there are occasional exceptions, I will do my best to give you assignments within a reasonable time to complete them. But by giving you such freedom, I expect you to get your job done, and practice good communication when it comes to managing your deadlines. That's not the reason for moving things forward. Instead, make the challenge surprise me! Turn things around quickly and efficiently - good habits that will make you useless to future employers. The more work you do, the more experience you get, and the more I can teach you. So let's work hard together and have fun! Confidentiality: I can't outsize over the importance of confidentiality. The documents you receive, my methods, my original materials and client data are strictly confidential. My thinking is how I make money. So sharing documents, strategy, or other information that you're learning here is forbidden, and using it outside my business means stealing. Käesolev praktikaleping (edaspidi leping) sõlmatakse
